

# Immunosuppression (IS) and HBV

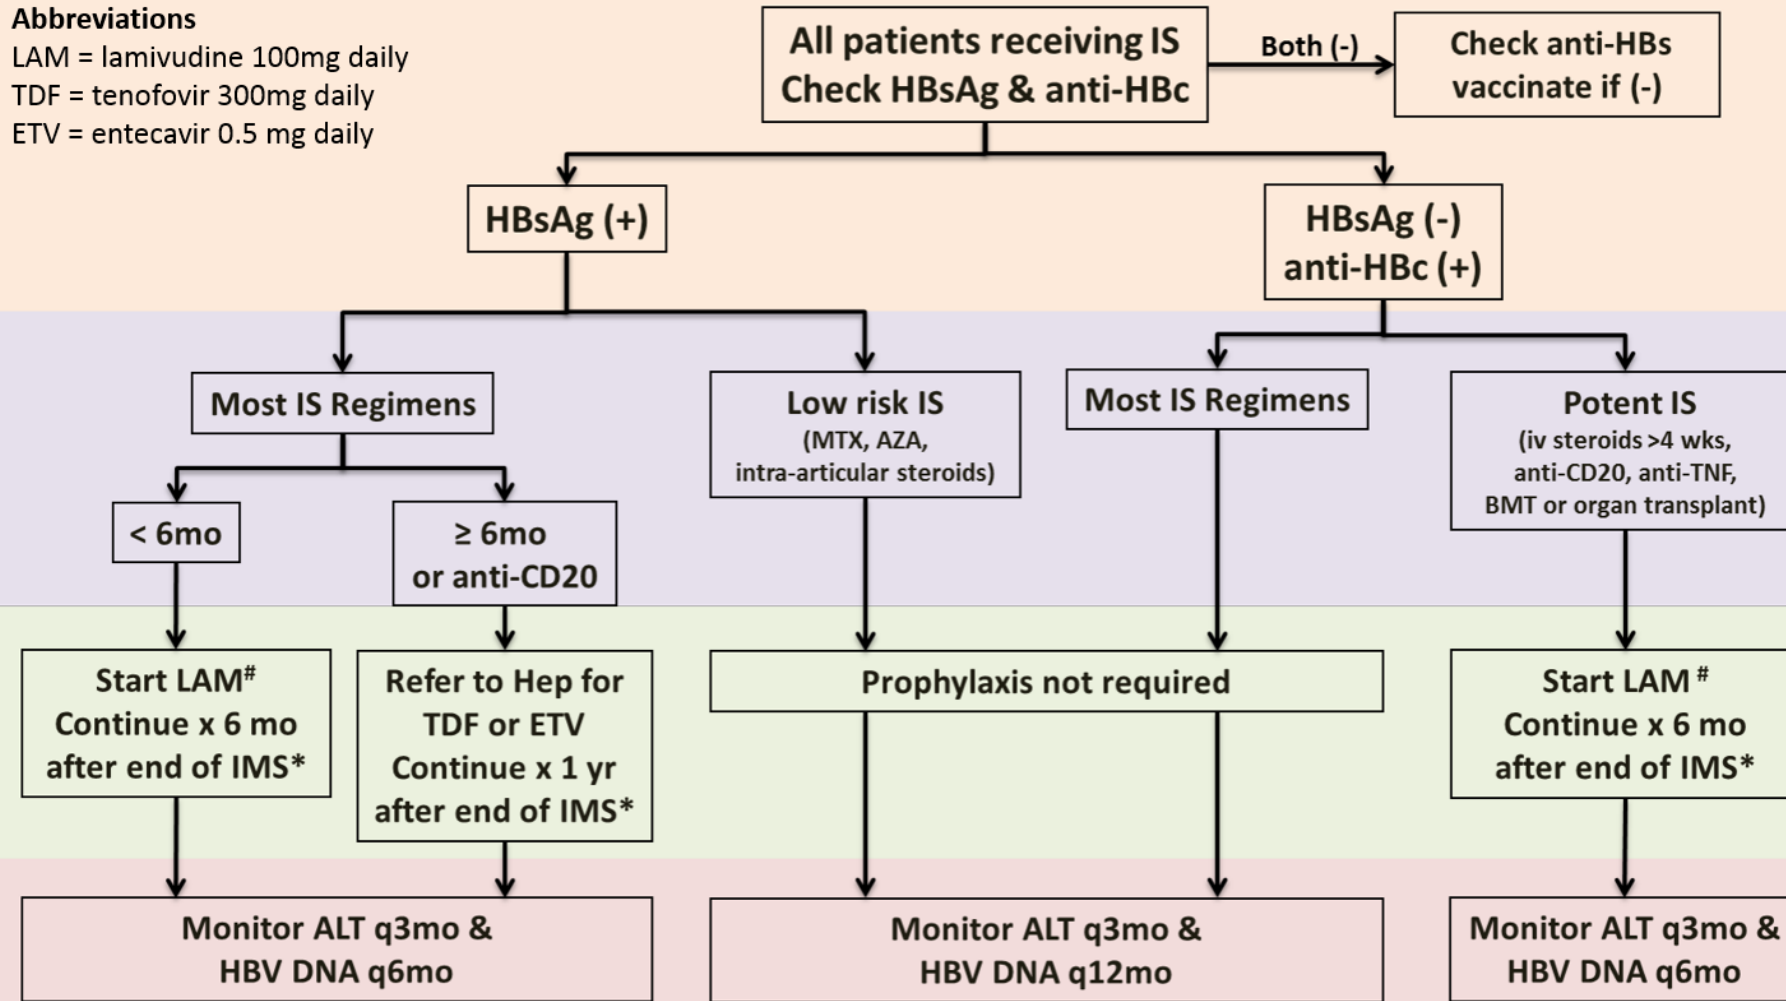

## Abbreviations

LAM = lamivudine 100mg daily

TDF = tenofovir 300mg daily

ETV = entecavir 0.5 mg daily

#Any MD/NP can prescribe LAM (doesn't require Hepatology or ID consultation)

\*Watch for ALT flares after withdrawal, consider longer prophylaxis after anti-CD20

Adapted from 2015 AGA, 2009 AASLD and 2015 ASCO clinical guidelines.
